SwarmGuard

Explore the platform.

SECURE CONNECTIVITY PLATFORM

Connect people, devices, systems and sites.

Secure connections across networks.
Access rules you control.

Security

Keep data private with end-to-end encryption. Control who you connect to and control access.

Connectivity

Connect across different networks. Adapt automatically to network changes and recover from outages.

Simplicity

Set up devices with a QR scan. Manage access centrally. Less effort, fewer errors.

Sovereignty

Your infrastructure. Your jurisdiction. Fair pricing and licensing. A Swiss partner close to you.

Applications

Remote Access

System Connectivity

Remote Work

Site Connectivity

INALP

TECHNICIANS TO EQUIPMENT

Remote Access

Diagnose faults remotely, reduce on-site visits and restore operation sooner.

Connect new and existing machines.
Embed our Agent or connect equipment through a gateway.

Use familiar service tools.
Access web interfaces and use compatible engineering tools.

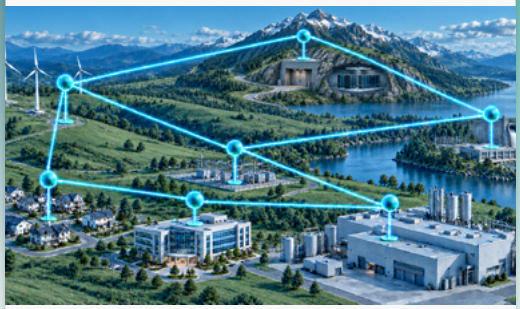

Keep customers in control.
Set permissions and let customers approve service access.

Get started with your machine.

SYSTEMS TO SYSTEMS

System Connectivity

Let applications exchange data across networks. Keep connections running with less manual effort.

Monitor distributed equipment.
Connect to SCADA, monitoring and IoT applications.

Link systems across locations
Connect systems across your premises, data centers and cloud.

Support unattended operation.
Connections start automatically and recover after interruption.

Start connecting your systems.
